Dear Sister Elkton July 19th 1808

I have been anxiously waiting for an answer to my letter that I wrote you by Mr. Sewall and as an opportunity offers by Uncle Thompson I do not hesitate writing writing you another, I suppose the reason that you have wrote is because you have had an private opportunity. I will be satisfied with one every private opportunity as I assure you that I have payed not less that two hundred cents for the letters that I have received from home. You must excuse my short letter as there is not any news in the City – Write me by the first private opportunity and I will answer your letter with pleasure – I expect to be home in October and stay a good while – I still remain your affectionate Brother –
