Visited 6th April 1830

Dear Sir,

Your mares arrived here all safe last Thursday about 12 oclock and yesterday morning Grecian Princess took the horse and in the evening of the same day the grey mare Arora (Mr Fields says you call her) took him Mr Murphy's is not yet in season — she will be attended to at the proper time. she is quite low in flesh and it is not likely she will be got with foal untill she recruits Mr. Fields gives them three. that is your two and Mr Murphy's grey [illegible]ve 12 quarts of oats per day at one cent per quart this feeding will only continue till we think they are with foal — The two mares with foal are at pasture with two gallons of oats per day with a little hay given to them morning and evening —

I shall be very glad to see you here any time you can make it convenient to come. Col. Johnson is here with Slender and his Sweepstakes Filly. and would also be glad to see you

Yours sincerely

Bela Badger

Col. T. Emory
