Dr Col.

Yrs of to-day is at hand. I will take the 60 bus: Wheat which you will please retain till I send for it. As to the illness of Majr Brown I would make a trip in the St Rock in the Wolcott as soon as Wheat to-morrow being quite desirous to see you. That unlucky Donaldson has hoisted me in Light stile. The rascal wants a caning badly. I am not surprised at the result of yr treaty with Wilson. His Hon- for Williams account might give you some trouble - as you are about to leave Lon it is needless to ask you to let me see you in Chester - if matters were otherwise I should like to have yr Counsel
