

City of Baltimore

February 16th 1804

The Branch met agreeably to adjournment
Present

William Telford President.

and all other Members.

The Committee appointed on the 11th Subject of the report of
the joint Committee on the Mayor's Communi-
-cation made the following report which was
read and concurred with,

The Committee to whom appointed
to examine the Health ordinances respectfully
report

That they have examined the several Health
ordinances with care and attention and in their
opinion the present ordinances are well adapted
to preserve the health of the City, except the two
first sections of the ordinance past 1803 which
refers to the number of Health officers and their
salaries, which your Committee think requires the
attention of the Council. Your Committee further
report that in their opinion it would be proper
to unite the several health ordinances together
and bring them under one ordinance and beg
leave to bring in a bill for that purpose.
