the Corporation on reasonable terms. They therefore look forward with pleasure to the period when the stock will belong to the Corporation, provided effectual measures are adopted to reimburse those who hold more than their proportion as citizens.

And as the fixing of fire plugs at suitable distances in the streets will greatly tend to the security of property from fire, & the water company have offered to erect & support them at the rate of ten dollars per annum each, a sum your Committee think reasonable, They therefore respectfully submit the following resolutions to the consideration of the Council.

Resolved by the Mayor & City Council of Baltimore that application be made to the General Assembly for a Supplement to our Charter of Incorporation, or an act of Assembly, to authorize the Mayor & city Council to purchase the whole or any part of the stock in the Water Company from time to time, as they may find convenient, to borrow money if necessary for that purpose, & to appropriate the funds of the City, or impose a tax on the assessable

property thereof, for the payment of the principal, & interest of the sums so borrowed, or vested in said stock.

Resolved that the Corporation will engage to take from the Water Company fire plugs to be fixed at such places as may be deemed most suitable for which they will pay Annually ten dollars each. Commencing as may be hereafter agreed on with the said Company
