of these resolutions is and the construction of the Officers of the Corporation who have executed them has been that no claim arises for executing the resolves directing to have the work done, And allowing Compensation in this case would certainly in the other cases justify the Officers who have executed the same duties to prefer their claims & the Council in the latter cases would be equally bound to provide for them but in my view neither have any claims that the whole duty which has to be done by imposed by the Health Commissioners on their clerk does not in my apprehension allow the Case — I am respectfully your Obd't Serv't.

J. Montgomery
