

Clayton June the 3 1793 -

Honored Sir) yours of the 4 of may did not come to my hands
untill the first day of this month which was too late for me
to expect to find your Excellency in anapolis or would have come down
I hope it will answer as well when you return from Frederick - you will
please pardon me when I inform you that upon reflection I think the
Discharge you shew'd me when at anapolis will make me
Liable for the payment of that money due to Tenant which
I am shure your Excellency cannot intend and regularly so when
you consider how hardly I have struggled in paying you the
two hundred pounds which I allways considered as full satisfaction
am ready to do any thing in my power to settle the Business and
Hope your Excellency will consider the many Difficulties and Losses
I have met with, and write me as soon as you return, and
am your Excellencys Most obedient Humble Servant

James Baker
