

Hope you will move in this matter, as
specifically as possible & with great wisdom.
But my heart is too bad, to expect any great
thing from it.

Magnolia drew on me at ten days & - and
so I have until the 16th day for prolonging
my agony, O, fatal day! If I hope that, I
think I can say, I can go along, until relief
comes. Really looks encouragingly. The case
to be completed only waits the evidence of Dr.
Stokes. The other testimony is all in, proving the
man, an idiot from his mother's womb. They
swear him right along - and leave no room for
doubt. Hope you got your Turkey Louse
safe. & will enjoy him. Fowler looks me, he
will close up Gibraltar in "early February"

Very truly
Yours
W. S. B.

Sincerely
Jas. V. Dall
