Science Shrinks Piles New Way Without Surgery

Finds Healing Substance That Does Both—Relieves Pain—Shrinks Hemorrhoids

New York, N. Y. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to stop bleeding—without surgery.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by doctors' observations.

Pain was relieved promptly. And, while gently relieving pain, actual reduction or retraction (shrinking) took place.

And most amazing of all—this improvement was maintained in cases where doctors' observations were continued over a period of many months!

In fact, results were so thorough that sufferers were able to make such astonishing statements as "Piles have ceased to be a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions, some of 10 to 20 years' standing.

All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne®)—the discovery of a world-famous research institution. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.

Now this new healing substance is offered in ointment form for hemorrhoids under the name *Preparation H*.* The price is only 98¢ a tube including an applicator. The name to ask for is Preparation H—at all drug stores. And remember—if not entirely satisfied—your money will be refunded promptly.

Housing is key to complete integration, says Templeton

Open occupancy is the key towards complete integration in this area, Dr. Furman L. Templeton, executive director of the Baltimore Urban League told members of the Baltimore Council of Women, here, Sunday.

Speaking at the Council's open forum, held in the Cooperative Women's Civic League House, Dr. Templeton warned against a slow-up on housing integration. Because of the recent flare-up in the public schools there may be a tendency for the Housing Authority to not move ahead on integration, he said.

In the meantime, he urged listeners to do all in their power to eliminate the ghetto pattern, both in their buying, in their dealing with real estate brokers, and in dissuading white residents to move out of neighborhoods that colored move in.

—o O o—

THERE IS CONTINUED need the speaker said, for developing political strength, cohesion and intelligence.

Dr. Templeton, speaking chiefly on results of integration in schools in this area, told the women that there is still the need that the proper conception stem from a realization of what integration is. This he termed freedom of choice and acceptance of individuals on the basis of qualifications.

Integration, he pointed out, does not mean a loss of racial identity of one group and harm done to another group. This is neither necessary nor desirable, he said.

He warned against losing the drive that the group has developed and told teachers and mothers to urge their children towards success in the wider and more competative field.

—o O o—

DR. MAYBELLE WEAVER, president of the Council told of the work of the group. Mrs. Katherine Mayo presided and introduced Dr. Templeton and Mrs. Betty A. Ward, analyst of the USA, who told the group that the foundation for adjustment in an integrated society is to be laid in the home.

HOW CAN YOU HAVE LONG, NATURALLY ATTRACTIVE HAIR

Smooth, Soft, Growing out Rich and Healthy?

Here is the only answer, backed by scientific facts: It all depends on the nature and condition of your *scalp*. In other words, you can have perfect hair only if your scalp is able to make it so.

Millions of people are learning that when they seek better looking hair they must think about the condition of the scalp too. They are also learning the amazing facts about the great Sulfur-8 Hair and Scalp Conditioner, and how it works for the beauty of the hair.

something wonderful happens
when Sulfur-8 goes to work to help hair and scalp

What a thrill it is to get admiring glances and compliments about the beauty of your hair! Yes, you are really at your best when your hair is a glorious crown to your charm—soft and radiant...looking so smooth and full and magnificently long. But your hair can't look right if certain conditions are wrong!

Sulfur-8 can't give you a new scalp, nor make your hair grow or be longer than your scalp allows, but when used in time it usually works wonders on many conditions that may hold your hair back from looking its best.

So, watch out for the warning signs: Maybe your scalp itches or feels "tight" from dryness. Does your hair seem dull and dead-looking? Could be, the breaking off and frizzy split ends of your brittle-dry hair makes it look rough and shortened. Act fast when you see those signs!

When you use Sulfur-8 as directed, notice how soon that vitalizing massage action makes your scalp feel more alive and healthy, and how your hair begins to look longer, thicker, and softer. Those ugly dandruff flakes seem to disappear and your hair glows with rich new lustre.

Yes, Sulfur-8 makes a wonderful difference!

Guild presents Phoenix Choir

The Rachel Taylor Wesleyan Service Guild of Metropolitan Methodist Church will present the Phoenix Choir of Baltimore in a concert on Sunday, November 21, at the 5 o'clock hour in the church auditorium.

The Phoenix Choir is non-denominational and the members come from all parts of Baltimore and surrounding counties. Throughout the most part of their twenty - eight years Miss Marie Spilman Meurer has been the capable director. The choir has appeared twice with the Baltimore Symphony and other outstanding organizations. Probably it is best known by its annual Christmas Concerts each year at Walters Art Gallery.

These two performances have almost become a Baltimore tradition since the Choir has sung there for twelve consecutive years. Mrs. Margaret Wheatley is guild chairman for the concert and Mrs. Ruby Thomas is president of the Rachel Taylor Guild.
