Hot Cross Season is here!

In almost every household, Easter preparations must be well underway. In spite of the rush and fuss, meals still have to be prepared. To add a serious note of religious reflection, Hot Cross Buns can be a reminder. The Frosted White Cross is a symbol of Christian Faith, especially during the Lenten Season.

* * *

A ROLL MIX is the basis of the first **HOT CROSS BUN RECIPE**. Follow the Recipe on the package for the Richer Dough. To it, add ½ cup currants, 3 tablespoons chopped citron and 1 teaspoon cinnamon. Let rise. Shape into round balls and place on greased baking sheets. Let rise from 30 to 60 minutes, in a warm place until doubled in bulk.

Bake for 15 to 20 minutes at 400 degrees F. Brush tops of rolls with butter; cool. To make Frosting: Add 4 or 5 teaspoons of milk to 1 cup sifted confectioner's sugar; mixing until spreading consistency.

If pastry tube is not available, make a tear at one end of a plain envelop; put Frosting in envelope; squeeze gently, pressing Frosting from opening onto Bun in the shape of a Cross.

Since there are many ways to do things, this next easy Recipe may be your choice. There is no waiting for the action of yeast. It is a variation of regular Muffin Recipe made with a Biscuit Mix.

* * *

HOT CROSS MUFFINS

2 cups Bisquick
2 tablespoons sugar
½ teaspoon salt
¼ teaspoon nutmeg
½ teaspoon Cinnamon
¼ cup seedless Raisins
2 tablespoons Currants
1 tablespoon citron, finely cut
1 tablespoon candied cherries, finely cut
1 egg
¾ cup milk

* * *

IN A BOWL, mix the first 9 ingredients. In another bowl, beat egg until light; add milk and mix. Combine flour and milk mixtures, beating just until blended. Fill well-greased muffin cups 2/3 full. Bake at 400 degrees F. for about 20 minutes. Make a Cross, as described in the Recipe above. Serve warm. Makes about 12 medium-sized muffins.

IF CURRANTS do not happen to be a favorite of yours, white raisins may be used instead. The spicy flavor and chewy goodness of this bread, should make it a family favorite all year long.

For those who enjoy making yeast-breads "from scratch" the next recipe should be treasured. It follows the regular way of bread-making. Hot Cross Buns will really be appreciated on Good Friday, but why not prepare some tomorrow, if no more than for practice. Here is the Recipe:

* * *

HOT CROSS BUNS

1¼ cups lukewarm water
½ cup sugar
2 teaspoons salt
¼ cup soft shortening
2 cakes yeast
1 egg or 2 yolks
½ cup seedless raisins
¼ cup currants or white raisins
1 teaspoon cinnamon
¼ teaspoon nutmeg
4 to 4¼ cups sifted flour

IN A BOWL, mix together milk, sugar, salt and soft shortening. Crumble yeast into mixture; stirring until dissolved. Stir in egg. Mix in fruit and spices. Mix in about one-half of flour, mix; add remainder of flour and more, if necessary to make a soft, easy-to-handle dough. Turn dough onto a floured board. Cover and let stand 10 minutes to tighten up, then knead lightly until smooth. Make a ball of dough and place in greased bowl.

Cover with damp cloth and set to rise in a warm place until double in bulk, about 1½ hours, Punch dough down and let rest 15 minutes to make it easy to handle. Divide dough into 24 pieces and form into balls. Place about 2 inches apart on greased baking sheet.

Cover with damp cloth and let rise until light—about 1 hour. Just before baking, cut a Cross in the top of each Bun, using sharp scissors dipped in flour or a very sharp knife.

Bake at 400 degrees F for about 15 min. Makes 2 dozen medium-sized buns. To **GLAZE BUNS**, a minute before taking out of oven, brush Buns with milk or egg white and sprinkle with sugar, then return to the oven a minute to glaze. Or, if making a Cross with confectioner's sugar frosting, let the Buns cool a few minutes.

BEST BUYS:

Sweet corn, turkey top food economies

By **VIRGINIA L. McLUCKIE**
Food economist

When we reach the between season period just before spring crops are ready for market shoppers find they need to plan carefully and keep an eye on the purse strings.

Looking back to the winter, supplies of most major vegetables have been materially smaller this winter than last, and prices have averaged substantially higher. Indicated production of early spring asparagus, broccoli, cauliflower, lettuce and onions is substantially smaller than a year ago.

* * *

AMONG LATE spring crops, acreages of cabbage and onions are slightly larger than last year. Acreages of spring carrots and shallots are also down from a year ago. Supplies of canned vegetables are moderately larger than a year earlier.

This situation along with weather conditions that has caused slow maturing of crops accounts for some of the firm prices at the produce counter.

* * *

THE BEST BUYS in produce are white potatoes, asparagus, sweet corn and cooking greens. The very large crop of fall potatoes has not been used and many remain on the market along with new potatoes. The old potato crop remaining the end of March was 6 million hundred weight more than last year at this time.

Asparagus is coming from California. This is a fresh crop only in the spring and when the fresh asparagus is in season it moves out of the luxury status it holds the rest of the year. Asparagus prices are moderae, with an average serving costing between ten and twelve cents.

* * *

SWEET CORN from Florida is attractive in price and quality is generally very good. Sweet corn can serve to perk up your meals.

Cooking greens on the best buy list are Maryland collards, kale and spinach. From Virginia and North Carolina we are getting turnips tops, landcress, cabbage sprouts, mustard, rape, and Broccoli Rabe.

Nearby green onions are also on the market.

* * *

GRAPEFRUIT is the best citrus buy. Both pink and white fruit is being offered at attractive prices.

Butter is slightly lower in price. Butter is one dairy product that imparts flavor to foods that is not duplicated by other fats. To season vegetables and spread on hot breads use butter for the finest delicate flavor.

Whole fish recommendations are rock and shad.

* * *

MEATS ARE the high protein foods that take a large portion of money spent for food.

Turkey is one of the best buys. Current supplies are large and prices are low. Consumption figures prove that consumers are increasingly substituting turkeys for other high protein foods the year around, and not just considering them as a treat for the holidays.

Stocks of frozen turkeys remaining are 73 percent toms, 23 percent hens and 4 percent broiler - fryer turkeys. There are about 6 percent more hens than last year. Plan to use a turkey in your meals for economy.

Smoked shoulders or picnics are also one of the best buys. The smoked or cook before eating type picnics should be baked to an internal temperature of 170 degrees Fahrenheit or between 30-35 minutes per pound at 325 degrees Fahrenheit. Count on two and one half servings per pound from smoked shoulders.
