Sallie will desert the homefront for a while and spend the next six weeks abroad culminating her trip by spending a few days with her niece who lives in Germany.

Refreshing sippables, delectable food, and sparkling conversation made for an afternoon of fun. Witty, funloving Sallie was the life of the party. She was the recipient of numerous bon voyage cards and a leather bound diary in which to record the highlights of her trip.

From each of her co-workers Mrs. Watty also received a personal gift. The biggest surprise of all came in the form of a large faculty gift.

Tormenting Rectal Itch Stopped In Minutes
Science Finds New Healing Substance That Promptly Stops Itching and Pain of Piles
New York, N. Y. (Special) — One of the most common afflictions is a condition known as "itching piles." It is most embarrassing for the victim during the day and especially aggravating at night.
No matter what you've used without results — here's good news. For the first time, science has found a new healing substance with the astonishing ability to promptly stop the burning itch and pain. It actually shrinks hemorrhoids — without surgery. Medical science has proved this substance produces a remarkably effective rate of healing. Its germ-killing properties also help prevent infection.
In one hemorrhoid case after another "very striking improvement" was reported and verified by a doctor's observations. This improvement was maintained in cases where a doctor's observations were continued over a period of months! Among these sufferers were a wide variety of hemorrhoid conditions, some of 10 to 20 years' duration.
The secret is this new healing substance (Bio-Dyne®) — discovery of a world-famous research institution. This substance is now obtainable in ointment or suppository form known as Preparation H®. Ask for Preparation H Suppositories (convenient to carry if away from home) or Preparation H Ointment with special applicator. Available at all drug counters.
