"We're with Pabst—and business is great!"

When we asked the Pabst employees shown above why they thought sales of Original Pabst Blue Ribbon beer were zooming, we got a variety of answers. Here are a few of them:

"It's the taste—Original Pabst has got that real old-time beer flavor."—Mal Jackson, Bottling Department.

"It's the brewing. We use only the finest ingredients, then we brew Original Pabst like it was brewed when it won the famous Blue Ribbon back in 1893."—Francis Williams, Bottling Department.

"My friends seem to like the fact that Original Pabst has a real hearty beer flavor, yet it's so much less filling."—Fred Evans, Bottling Department.

One thing everyone at Pabst agrees on. Business has never been better. Seems like everyone likes the great old-time beer flavor of Original Pabst Blue Ribbon.

We think you'll agree, too. Try a glass of Original Pabst soon. We're sure you'll like its great old-time beer flavor.

ORIGINAL Pabst Blue Ribbon

Urban League calls for preferential treatment

LOS ANGELES — Racial minorities are entitled to more than simple equality, Whitney M. Young Jr., executive director of the National Urban League, said here Saturday.

The Urban League opened a five-day national conference Sunday. Mr. Young called for acceleration of measures to compensate colored citizens for the last century of oppression.

• • •

HENRY STEEGER, NUL president, joined Mr. Young at a news conference, as did two Los Angeles Urban League officials — Dr. Leroy R. Weekes, TAU president, and Dwight R. Zook, past president.

"The League is seeking preferential, rather than equal, treatment for colored," Mr. Steeger said. "Colored people are so far behind that a crash program is needed to bring him up to equality with other U.S. citizens."

• • •

"COLORED GIRLS here have less trouble entering nursing careers than young colored doctors meet in gaining hospital staff acceptance," Dr. Weekes declared. "This is one of many problems in Los Angeles."

Mr. Zook, North American Aviation executive, said his company has stepped up efforts in employment, but faces lack of highly qualified colored applicants.

COLESLAW WITH Carrots . . . 3 cups shredded cabbage and 1½ cups shredded carrots with a combination of 3 tablespoons mayonnaise, 1 tablespoon vinegar, ½ teaspoon salt and 2 teaspoons sugar for the dressing.

COLESLAW WITH APples . . . 3 cups shredded cabbage and 1½ cups chopped, unpeeled tart apples with a sour cream dressing.

• • •

COLESLAW WITH Onions . . . 3 cups shredded cabbage and 2 medium onions cut into slices and separated into rings. Season to taste with celery salt, paprika, salt and pepper and add just enough mayonnaise to hold ingredients together.

TIME OUT — Charles C. Noel Jr., 6118 Wister St., Germantown, member of Temple University's TV quiz panel and debating team, takes time out from books to work as maintenance man for Leeds and Northrup Company. Noel plans to major in history for a career in teaching.

Col Douglas retires

FORT GEORGE G. MEADE, Md. — The Second United States Army bade farewell to its XXI U.S. Army Corps Deputy Commander, when it honored Colonel Robert H. Douglas with a retirement review recently.

The ceremonies marked the end of a 30 - year active Army career for this officer who joined the XXI Corps Staff in May, 1960.

FRANK BUDD, offensive half-back for the Philadelphia Eagles from Asbury Park, shows two young hopefuls from the Boys' Clubs of Newark how a pro wears a helmet. The Eagles are training in Hershey, Pennsylvania for a re-match with the N.Y. Giants, Sept. 7 in the N.J. Jaycee Classic benefit game in Princeton's Palmer Stadium. Youngsters left to right are Wayne Fassett, age 11, 449 Mt. Prospect Ave., and Fred Torsiello, age 12, 325 Woodside Ave. Tickets to the game may be purchased at any of the Boys' Clubs of Newark, from Jaycee chapters, or from the Giants or Eagles offices. Jaycees run the charity game with the co-operation of P. Ballantine and Sons Brewing Co.

Annual Golf Tournament starts today

WASHINGTON

The sixth annual recreation open golf tournament will be held at the Langston Golf Course, 26th St. and Benning Rd., NE by the D. C. recreation society on Friday, August 2, through Sunday, August 4.

The starting time each day will be 7:30 a.m. for the 36 holes of medal play to be played on two days, but all entries must be in by 3:45 p.m. on Saturday.

There will be three flight classes: Amateurs, men and women, to be flighted; novice for players shooting 100 and over who have never won a trophy; and professional.

Finals will be on Sunday and trophies and awards will be presented afterwards.

For further information, contact Joe Cole at the D. C. Recreation Department, AD 4 - 2050, Ext. 12.

Two resign from rights committee

BELOIT, Wis. (ANP) — Philip Johnson, grand master of the Prince Hall Masonic Lodge of Wisconsin, became the second colored person to withdraw from the 15 member bi-racial Human Rights committee nominated by Beloit City Manager Richard Callan last week.

Johnston joined another committee nominee, the Rev. U. S. Pride, pastor of the New Zion Baptist church, in resigning in protest because the committee did not include one of the city's most active colored leaders, the Rev. Oliver W. Gibson, pastor of the Wesley Methodist church and chairman of the Beloit Christian Leadership conference. The committee, as originally named, included six colored and nine white members.

Althea competing in 2nd golf meet

MILWAUKEE — Former world tennis champion Althea Gibson teed off in the Milwaukee Jaycee women's golf tournament here Thursday, her second venture into the pro golf tourney field.

Miss Gibson entered the U.S. Women's Open at Cincinnati last month, but failed to finish in the money. She had won several amateur titles before embarking on her professional career.

TECHNICIANS

SOLID STATE TECHNICIANS

IBM'S new Components Division has several immediate openings for technicians in:

METALLURGY ● PHYSICS
ELECTROMECHANICAL
ELECTRONICS ● CHEMISTRY

METALLURGY: Positions are in the device and process development laboratory, and require 3-5 years' experience in preparation techniques fo semiconductor or rare earth-metals materials.

PHYSICS: Challenging opportunities in semiconductor physics or physical chemistry. These positions require 2-3 years experience in laboratory work involving ultraprecision physical measurement. Familiarity with righ-vacuum technology, diffusion techniques, and electronic test equipment is desirable.

ELECTROMECHANICAL: Positions are in the maintenance of automated semiconductor production equipment. Complete familiarity with intricate, complex electromechanical units is required.

CALIBRATION: Positions require two-three years' experience in calibration and repair of complex electronic test equipment, oscilloscopes, power supplies, and other electronic instruments.

CHEMISTRY: Positions are in semiconductor process development and device fabrication. Required is 3-5 years' experience in inorganic and physical chemistry laboratory techniques.

A certificate of completion from an accredited two-year technical school is desirable. Geographic location of the Components Division is in Dutchess County, approximately 65 miles north of New York City. IBM is an Equal Opportunity Employer. Liberal company-paid benefits including relocation and tuition refund. Please write, outlining background, interests, and qualifications, to:

R. J. Jacobs
Dept. 74 HI

200 students to conference on safety

Some 200 high school boys and girls representing every section of the state will converge at the University of Maryland Sunday to attend the fifth annual Maryland Youth Traffic safety conference.

Many well - known national and local safety officials will participate in the four-day conference. Among the prominet speakers will be Alfred L. Moseley, research associate in legal Medicine of the Harvard Medical School, whose keynote address will be "Research on Fatal Highway Collisions."

Governor J. Millard Tawes will be in attendance and give the principal address.

This program is coordinated by the Maryland Youth Safety Advisor, Inc. Mrs. Edith A. Scherer is the executive director. The Maryland Law enforcement offices, Inc. are responsible for the financing of this conference.

The coordinators are: The Maryland Traffic Safety Commission, The Maryland State Police, Maryland State and City Departments of Education, Department of Transit and Traffic of Baltimore City, The Municipal Traffic Court of Baltimore City, Maryland State Roads Commission, The Department of Motor Vehicles and keep Maryland Beauti-

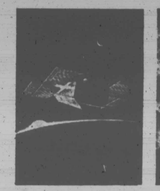
THE GREATEST TECHNICAL CHALLENGE OF OUR TIMES

OAO
The Orbiting Astronomical Observatory (OAO) will be launched in 1964.



LEM
The Lunar Excursion Module (LEM) will land Apollo's Astronauts on moon in late 60's.

The selection of Grumman to design, develop and fabricate the NASA Lunar Excursion Module (LEM) which will be used to achieve the Apollo program's goal of landing astronauts on the moon, open a new chapter in the conquest of space. Boosted by a three-stage Saturn C-5 vehicle, the Apollo spacecraft will enter lunar orbit and LEM will separate from the spacecraft to begin its epoch-making descent to the lunar surface. Ranking among the greatest endeavors of all time, the Lunar Excursion Module and other space programs at Grumman are creating unprecedented professional opportunities.

Structural Designers—BS in ME, CE, AE or equivalent with a minimum of 5 years experience in layout and design. Familiarity with materials and methods of manufacture, and familiarity with loads. Ability to perform preliminary design and analysis of primary structure. Experience with manufacturing and purchasing departments. Opportunity to participate in preliminary design for experienced creative structures designers.

Energy Absorption Engineers—BS in ME with 5 years experience in mechanical systems design and familiar with mechanisms. Lunar Landing System: study and establish landing energy absorption requirements, study and establish the energy absorption medium compatible with space and lunar environment; design lunar landing systems and establish test requirements for the system in space and on the lunar surface. Design, development, extension and erection of the system for space and lunar environment.

Alighting Gear Design Engineers—BS in ME, CE or AE with minimum of 5 years experience in mechanical systems design and familiar with aerospace design practices. Background should cover some of the following areas: mechanical linkages and their motion analysis; structural analysis of components; dynamics; energy absorption of power packages; and test verification tests to substantiate the design.

Propulsion Aerodynamicists/Aerothermodynamicists—BS or MS with 2 years minimum experience in one or more of the following: Nozzle Design, Heat Transfer, Jet Induction Systems, Reaction Jet Systems, Ducted Fans, Rocket Plumes, Pressurization Systems, Airborne Combustion Systems, Boundary Layer Control, Rotary Machinery Analysis, Reamers, Exhaust Systems, Compressible Fluid Flow, Windtunnel Testing, Thrust Reversers, and Hypersonic Breathing Propulsion Systems.

Fluid Mechanics Engineers/Internal Aerodynamicists—BS or MS with a minimum of 2 years experience applicable to analyses and test work on Reaction Jet Control Systems, Nozzle Design, Inlets, Jet Induction Systems, Pressurization Systems, Thrust Vector Control, VTOL, Internal Flow and Airborne Cooling Systems.

Senior Heat Transfer Engineers—BS or MS with minimum of 5 years training and experience in structural heat transfer analysis to include Heat Sink Design (IBM programs, and other analytical tools applicable to new complicated configurations and end conditions for space vehicle. Background should include experience in the following areas: mechanical linkages and their motion analysis; structural analysis of components; dynamics; energy absorption of power packages; and test verification tests to substantiate the design.

Temperature Control Engineers—BS or MS and 2 years experience to handle space vehicle temperature control system analysis. Should have background in radiative heat exchange and thermal coatings as applied to passive and active temperature control systems.

To arrange a convenient interview, send resume to Mr. H. A. Anderson, Director of Employment, Dept GR 217.
