Mr. Sykes, a construction worker, told the AFRO shortly after the incident Wednesday night that his sons had gotten a little out of hand.

The three were charged with threatening and intimidating Silas McGhee, colored of Greenwood, who was trying to use the facilities of the LeFlore Theater in Greenwood.

These officers would persuade local authorities and businessmen to lift bars against minority military personnel in public accommodations and recreation.

Commission secretary Mitchell stated that the Federal governmnt had the power to declare segrgated places of accommodation off limits and felt that the armed forces commanders could designate such facilities with the cooperation of the Interracial Commission.

ALONG WITH policeman Gantt's complaint against the lily - white police organization, the Commission also learned that a state fireman's association restricted its membership to whites only.

An official of the fireman's group, in a letter to the Commission, advised that it could change its policy no sooner than 1965, time of ts next convention.

The Commission agreed to request that the association speed up change of its membership requirements.

City worker accused of vileness to children

Several mothers in the Dukeland - Prospect Sts. area shocked and enraged over vile language directed toward their children Tuesday by a Bureau of Sewers employee, hav yet to receiv a requested apology.

Bernard F. Suwall, assistant bureau engineer and acting department chief, said he wanted to let th matte drop without such an apology.

"We have already instructed our employees to be courteous to the public at all times," he told the AFRO. "Why blow this up further. I don't believe in blowing things up."

* * *

MAYOR THEODORE R. McKELDIN, however, in response to information from the AFRO about the incident, said he would ask Mr. Suwall for a report on the matter.

When this is received, he will take such action as the report indicates is necessary.

Here is what residents of the area complained of to AFRO representatives calld to th scene.

About 10 a.m. Tuesday, a Bureau of Sewers white employee turned on water at a hydrant at Dukeland and Prospect Sts. to wash the streets.

It was a hot morniag and a number of small children immediately sought to play in the gushing water.

SEVERAL MOTHERS sitting on their porches said they were shocked when the man began cursing the children, using other vile language toward them and began chasing them away.

The mothers objected and an argument arose. The situation became so tense, police were called. The man tehn turned off the water and left.

Two of the mothers, Mesdames Alice Jackson and and - Venola Wallace, 90 block Dukeland St., said they calle the bureau of register complaints, but go no satisfaction.

Still another, Mrs. Barbara Barnes, who lives around the corner in the 2700 block Prospect St., said one of her chilren was particularly the butt of the man's foul language.

THEY TOOK the number of the man's truck, and this was given by the AFRO to Mr. Suwall immediately after the incident.

Mr. Suwall said Wednesday the man had been idn than a reminder to hm t be courteous to the public.

It was then Mr. Suwall said he did not think an apology to the mothers was necessary.

When an Englishman made the first Gin & Tonic, did he use Gordon's?

Undoubtedly. A retired Army Colonel, vividly recalling the heat of India, created the first Gin & Tonic nearly 75 years ago. Gordon's had already been firmly established as a favoured English gin for more than a century, so it is fair to assume the Colonel used Gordon's. Since then, gin-drinkers have found Gordon's the indispensable ingredient in a host of summer drinks, from Tom Collinses to Orange Blossoms. Not to mention the cocktail for all-seasons, the glorious Gordon's-martini. Hot enough for you? Tell the man "Gordon's," the biggest-selling gin in England, America, the world.
