New Sears store now open at Landover Mall center

Ribbon-cutting ceremonies marking the grand opening of Sears, Roebuck and Co.'s newest area store were held recently at Landover Mall.

The new store reflects 86 years of progress for the company according to O. L. Weir, General Manager of Sears retail operations in D.C., Maryland and Virginia.

"The expertise of 86 years in merchandising is apparent to customers in the architectural design, store layout, display and merchandise in this the newest of Sears stores," Weir said.

"Sears Landover Mall store does not lure shoppers with sheer volume of stocks and then abandon them to commonplace selection and environment," he said.

"Merchandise departments are distinguished by contrasting architectural treatments to create the effect of an avenue of small Specialty Shops within a large department store," Weir said.

An example of the shop concept, he said, is the Junior Bazaar Shop which features today's most current fashions for women displayed in an informal atmosphere in a chrome-fixtured mod boutique. Other ther shops include the Road men's and young men's shop, the Lemon Frog Shop, the teenage giri, the Put-on Shop for shops include the King and the Better Dress

There also are complete home fashions and custom home decorating shops in settings arranged much as they would be in a private home to assist the customer in merchandise selection.

In total, the three level store has more than 50 merchandise departments, appliance and hardlines departments are located on the first level.

A Coffee House which accommodates 192 persons and a Community Room for group functions also are located on the first level.

Softlines departments occupy the second level and home fashions are located on the third level. General Offices are also on the third level.

The store which has a gross area of about 166,000 square feet, also has an 8560 square foot Garden Shop and a 27,165 square foot, 24 bay Automotive Service Center.

Weir said services ranging from the replacement of windshield wipers to the installation of engines and transmissions are available at the Automotive Center.

The sales area of the Automotive Cener includes a complete line of tires, automotive parts and accessories.

Store services to the homemaker include planning advice on room arrangement, color fabrics and furniture. Kitchen planners, trained in giving modern beauty and functional design to old kitchens, provide sketches and estimates without charge. Other home improvement consultants provide building, plumbing and heating plans.

Preventative maintenance of Sears appliances is provided by the store's staff of service technicians as part of a nationwide service program.

Our new Landover Mall store, Weir said is the result of years of research and planning.

All statistics — population, retail sales, economic potential pointed to the need for this new Sears department store.

We are most pleased with our decision to expand with this new store," he stated.

It's 1973, and Chevrolet roofs are opening, seats are swiveling, bumpers are retracting, hatches are flipping up.

Did you ever have so much to talk about that you didn't know what to say first?

We're happy to report that's us for 1973. But since everything must begin somewhere, we'd like to draw your attention to our roof . . .

Isn't it romantic?

You see that rectangle beaming at you from above? That's a moonroof. Not to be confused with a sunroof. (Although many people will undoubtedly be caught using it like one.) A power roof is available on Chevelle and Monte Carlo; a manual one on Nova.

Take the easy way out

Order our new Strato-bucket front seats that swing out 90°. They help make entrances more dignified and exits less showy.

You can get them on Chevelle and on Monte Carlo.

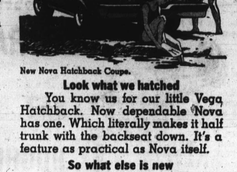
Who'd have thought we'd ever get excited about bumpers

This year's, however, are something to get stirred up about. The front bumper on all big Chevrolet, Chevelle and Monte Carlo models is built around twin hydraulic cylinders. So on minor impact, the whole system retracts to cushion the shock.

New Malibu Colonnade Hardtop Coupe.

We've been thinking about your legs

One of the few things people asked us to improve in our popular Chevelle was leg room in the backseat. Well, your knees will be pleased with the '73s. There's almost 3½ more inches for your legs in the sedans.



New Nova Hatchback Coupe.

Look what we hatched

You know us for our little Vega Hatchback. Now dependable Nova has one. Which literally makes it half trunk with the backseat down. It's a feature as practical as Nova itself.

So what else is new

Among other things, larger gas tanks for longer cruising range, a new Exhaust Gas Recirculation system, a hatchback for wagons, reclining front seats, a reading light for front seat passengers and scores of dramatic styling changes.

We invite you to see it all now at your Chevy dealer's.

Chevrolet

We cost a lot less (and we're 86.8 proof, too).

Renfield Dry is a full 86.8 proof, just like them. It's light and smooth, too. Aged to perfection. Ours is the only Canadian with "dry" in its name.
