FBI Seeks Minorities for Jobs

WASHINGTON, D.C. — Special Agents John M. Cary and John D. Glover are examples of individuals who are in supervisory positions at the Federal Bureau of Investigation.

They give expert leadership and guidance in such important areas of the Bureau's responsibility as the National Crime Information Center (NCIC) and firearms training.

Special Agent Cary, who was awarded a B.A. degree by Pepperdine University, Los Angeles and an M.A. degree by Eastern New Mexico University, Portales, is attached to FBI Headquarters where he affords supervision to the NCIC.

NATIONAL BASIS

The NCIC is a computerized storage center for information concerning crimes committed on a national basis.

Mr. Cary participated in the establishment of the computer center. He has lectured before numerous groups on the functioning and operations of NCIC.

Fulfilling the needs of the FBI in another area of supervision is Special Agent Glover, a graduate of Florida A and M University, Tallahassee, who is a supervisor at the FBI Academy, Quantico, Va.

FIREARMS ACTIVITIES

Mr. Glover has the responsibility of training new special agents in the proper use and handling of firearms.

He also supervises the firearms activities of law enforcement officers from all over the country who attend the Federal Bureau of Investigation National Academy sessions.

Special Agents Cary and Glover acquired investigative experience while assigned to various field offices before advancing through the ranks to supervisory positions at FBI Headquarters.

HIRING OF BLACKS

FBI Acting Director L. Patrick Gray III said he has found the record of the Bureau good regarding the hiring of Blacks, Spanish-surnamed Americans, American Indians and Asian Americans.

Mr. Gray went on to say there was definitely a need for members of those groups to serve within the FBI. Special agents, representing these groups, are assigned to the various FBI field offices throughout the country.

The investigative work of the FBI is performed by
