Milton Allen got solid black vote in race for state's attorney

Milton Allen got solid black vote-primary figures show whites backed opponent (See editorial, page A-4).

Black voters in Tuesday's Primary Election gave solid support to the candidacy of State's Attorney Milton B. Allen, an AFRO survey shows.

The tally of 100 precincts proves that contrary to published reports, Mr. Allen lost his race for re-election to the prosecutor's office because white voters cast their ballots for a last-minute contender, William Swisher, who admits he was importuned to run by Democratic bosses.

Mr. Allen received, 44,-006 votes to Mr. Swisher's 47,290, according to unofficial returns.

• • •

A review of citywide precincts shows that 93 per cent of black voters supported the candidacy of Mr. Allen. However, only 26 per cent of white voters pulled his lever.

This sustained support of Allen would have been sufficient to return him to his Courthouse office if enough black voters had gone to the polls.

The AFRO survey shows that while there was a 28 per cent citywide turnout at the polls, 30 per cent whites voted, but only 24 per cent black.

Nevertheless, the AFRO survey shows that those who did go to the polls did indeed back Mr. Allen.

The AFRO tally of votes also shows that published reports that the black voters split and opposed Allen are untrue.

• • •

Dr. Homer Favor, dean of the center for Urban affairs at Morgan State College, termed the attempt to indict the black community for Allen's loss 'scurrilous.'

Dr. Favor explained: "In the first place when Allen won four years ago he ran against 5 whites. Secondly the proportion of voters was higher then because of excitement engendered around the candidacy for Parren Mitchell for Congress and Joseph C. Howard for Supreme Bench judge.

"Place the situation of four years ago against that of today. Allen was running head up against a Swisher. He had apparently had assurances from major segments of the community they would be supportive but some areas where he was to have been supported the — midnight ballot — excluded him even after the apparent assurances."

• • •

Further, Dr. Favor told the AFRO, "The truth of the matter is this was an exceptional turnout as is to be expected in off-year elections but even with that Mr. Allen won hands down in all of the black precincts and districts.

"His loss is directly attributable to the failure of those in the white community to support him. This is indeed ironic because the press, prior to the election, continued to admonish the public against the evils of voting along racial lines.

"There is no comparison between the track records between the two people (Allen and Swisher), involved and the overwhelming white vote and support must be laid at the feet of the white establishment because of its racist tendencies.

"As black people we can not continue to allow the evil force among us to divide and conquer through the use of nonsensical statements such as Mr. Allen would have won had he been supported by Mr. Phillips and Mr. Dobson."

• • •

Dr. Favor predicted:—"There is yet another lesson for aspiring black politicians to learn from this debacle, mainly the strength to garner and hold political office lies primarily, if not exclusively within the black community.

"All too often, such aspirants are sidetracked by the provisions of huge amounts of money, but these are seldom transformed into votes from the white community.

"The increasing proportion of blacks in the city of Baltimore suggests that, in due course, the State's Attorney's office will be recaptured, the complexion of the City Council will change and indeed, we will have a black mayor who is responsive to the life and times of both the black community and the broader community as well."

AFRO precincts are . . .

The AFRO traditionally selects precincts where registered voters are 98 per cent or more black These are called AFRO precincts. For the Tuesday, Sept. 10, 1974 Primary Election, the AFRO indentified 100 such precincts in all sections of the city and tabulated the vote in them on election night at War Memorial Plaza. Printed here are the results of citywide races, candidates for the House of Delegates and a key race for State Senate in East Baltimore.

AFRO precinct voters gave Allem support

	DEMOCRATIC REGISTRATION 8/24/74	VOTES CAST	% VOTED
Black	123,697* (38%)	29,780*	24%
White	201,822* (62%)	61,516*	30%
TOTAL	325,519	91,296*	28%

*Estimated

Figures in the following chart are based on the number of votes cast citywide in the States Attorney race:

	(ESTIMATED) PROJECTED VOTE BLACK	WHITE	TOTAL
Allen	57,810 (63%)	16,196 (37%)	44,006
Swisher	1,970 (4%)	45,320 (96%)	47,290
TOTAL	29,780	61,516	91,296

Citywide 93% of blacks voted for Allen, and 26% of whites voted for Allen.

The total Democratic registration as of August 24, 1974, is 325,519. It is estimated that 36 per cent of this number is black and the balance of 62 per cent, white.

It is interesting to note that in the 100 AFRO precincts the votes cast for the state's attorney race outnumbered those for the governor in almost every case.

In the other precincts the vote for governor ran just about even with those for state's attorney.

The chart below indicates that citywide there was approximately a 28 per cent voter turnout — 30 per cent white and 24 per cent black.

Had the black turnout been equal to the 28 per cent city average, the additional 4 per cent would have represented 5,000 more votes. This would have been more than enough, based on the percentage of black voters voting for State's Attorney Milton B. Allen, to have made him a winner over his opponent William Swisher.
