You've Come A Long Way, Baby!

A salute to Baltimore women in business, industry and professions

WOMEN ON THE MOVE — Paula Cullings, who manages a minority-owned paper company, is the owner of Paula's Transportation, a bus company that provides service for schools as well as private transportation. At top right, Janice West, was the pretty police officer that turned heads when she became the first female in the mounted unit of the police department. Bottom right photo shows Gail Grover, the only black female air traffic controller at Baltimore - Washington Airport.

Women taking charge in the work force

By Portia E. Badham
AFRO Staff Writer

On yes! You've come a long, long way, baby... and as they say this is only the beginning.

Baltimore women are on the move and challenging their male counter - parts for an equal slice of the economic pie.

No longer satisfied with those traditional jobs associated with women, females are vying for the professional jobs once totally dominated by men.

Each year, more and more women are joining the police department and proving that women can do the job. Two years ago, Janice West became the first female in the department's mounted division. And many heads turned as she began riding through the streets of Baltimore on her horse. "Was that really a woman? I can't believe it."

Probably, the same words were uttered when the late Violet police uniform as the first black female officer in 1937.

Gail Grover remains the only black female to work as an air traffic controller at Baltimore-Washington Airport. And at age 28, she's already an eight-year veteran.

Within the last decade, more and more women were returning to the work force to supplement family incomes. And as the economic situation tightens, many women find no other choice but to work.

However, nestled into the tremendous flight back into th labor force, are those females who decided to enter the board rooms and offices because sitting at a typewriter or behind a sales counter just wasn't enough.

Stephanie Wilson, 26, decided to head to the hills, so to speak, for her job. In August 1980, she started the first black female state park ranger.

Last year, Mabel Hubbard became the first female District Court Judge. Mrs. Hubbard had been a master in juvenile court before being appointed to the judgeship.

Of the 423,110 females in Baltimore city, 2,228 hav decided to be their own boss.

Figures quoted by the Bureau of the Census as of 1978, indicate that the more than 2,000 female-owned firms grossed $154 million.

Thirty-nine of those firms were in construction and earned more than $8 million, 42 in maintenance, reaching $5 million, and 43 transportation, and public utilities topped the $7 million mark.

It's been a great year for women and setting t pace for wo men to forge ahead was Sandra Day O'Conor, who became the first female to serve on the nation's highest court, the Supreme Court.

As the Equal Rights Amendment moves closer to rati fication t only three more states are needed to reach the 38 stte state total: the future of women in work looks even brighter.

There are still several areas left to be penetrated by women. The city's Fire Department is still without a female firefighter. There are however, eight females who serve as paramedics under the fire department's medical bureau. And one of those ladies is eligible to take the lieutenant's test this year.

The opportunities are there for women in business, law, education, industry, communications and medicine but grabbing those opportunities sometimes requires a lot of work, dedication and determination. But the rewards are worth it.

You've come a long way baby... but there's still so far to go!
