Spotlight on Leo

Happy birthday to the "I will" of the Zodiac. You are a fixed, positive fire sign known as the "lion." You combine the enthusiasm of fire with the powerful expression of a fixed nature. Who else could be ruled by the strongest planet, the sun. After all, whoever heard of a "lion" not being the center of attraction. Creativity, gracefulness, proud, determined and a great organizer are terms used to describe you.

Of course, being conceited, a little snobbish, patronizing and dogmatic are good terms to describe your negative traits. As a Leo, you need to feel needed and show your love. You offer love and warmth to all that enter your life.

This year promises to be a highly inventive year for the lion. You will find yourself reaching heights which were once unattainable. Romance will be exciting and full of surprises during the summer months. Being committed and taking on responsibilities are not in the cards for you, at least not now. For married "lions," taking a trip together will be a perfect way to keep the romance flowing.

For the single, you will be ready for a full-fledge romance by November.

August will find a Virgo ready to share your time. The new moon of August 8 favors romance and a social calendar filled with excitement. In romance, be aware of the 14th, your mate has some surprises in store for you.

Again, the full moon of the 23rd features love and marriage. It will be a see-saw situation but with your prowess, you will place romance on the back burner until September. Keep in mind that Saturn moves into Scorpio on the 23rd. This will be a time for an upswing career move.

AQUARIUS
January 20-February18

Try to get your workload in order this month. The new moon of the 8th accents family and partnerships. Work together with an open mind during this period. Don't feel too impatient when Saturn enters Scorpio. After all, this will be another growing stone for you. Another Aquarian is ready to fill the void in your life.

PISCES
February 19-March 20

There will be many changes occurring this month. Take everything in stride. Watch your health carefully. Those extra pounds aren't becoming. Careerwise will look upward when Uranus turns direct. Being independent will take you into unexpected areas of work. When Saturn enters Scorpio on the 24th, an interest will be renewed in religion, psychology and even philosophy.

ARIES
March 21-April 19

Love is in the air and plenty of it. You will enjoy life to its fullest this month. Your schedule is filled with entertainment, children and of course, love. There will be some dramatic changes with the full moon of the 14th.

TAURUS
April 20-May 20

Money and work is on the agenda, for the bull. Getting your work and life in order is at the top of your priority list. The new moon of the 8th brings reminder items of things to do at home.

GEMINI
May 21-June 20

An interesting month for the twins. Life will be moving swiftly, so get on the bandwagon. As usual, money is a problem. The new moon of the 8th should bring some positive speculation.

CANCER
June 21-July 22

This is a real good month for the crab. Finances are looking upward with the new moon of the 8th. All the bills you put aside will be paid before you know it. Of course, love is in the picture but, take it slowly.

Get it together — Buckle up.

Ford Is A Leader In All These Technologies

Soon, two-thirds of all overseas communications and almost all intercontinental television programming will travel by satellites built by Ford Aerospace & Communications Corporation.

Our technology helped guide the Columbia space shuttle home, and bring back pictures from Saturn.

Ford is the leader in alternative fuel technology; fuels which can be derived from abundant organic matter, coal, and natural gases.

Our newest electronic brain takes the automobile to a new level of sophistication. It saves fuel and improves and refines total driving performance.

We're building a laboratory on wheels, a prototype vehicle made almost entirely of a graphite fiber reinforced plastic, that's lighter than aluminum, stronger than most steel.

We've designed the most aerodynamic passenger car in the world. The incredible Probe IV. (Cd.15).

Being a leader in all these diverse technologies can pay immense dividends for a company whose main pursuit is building cars, trucks and tractors.

It gives us invaluable knowledge and insight enabling us to build more sophisticated and efficiently performing vehicles. And staying on the leading edge of these technologies not only helps us build better vehicles today, but it assures that we can and will build better vehicles tomorrow.
