DECD making improvement and energy conservation loans

ANNAPOLIS — The Maryland Department of Economic and Community Development (DECD) has available $6 million for home improvement loans and energy conservation improvement loans in one-to-four unit owner-occupied homes. The loans are available through the Community Development Administration (CDA), the state's housing finance agency.

Through the Home and Energy Loan Program (HELP), CDA will provide qualified applicants with home and energy conservation loans at a fixed interest rate of 10 percent, plus a one-half percent insurance premium. Loan amounts range from $2,000 to $15,000. Borrowers can repay the loan over a period of up to 15 years.

To qualify for a home improvement loan, applicants must have an income of less than $28,000 per year if single, or $33,000 per year for a household of two or more people. Among the home improvements eligible for HELP financing are: home additions; repair or replacement of plumbing, heating and electrical systems; installation of new bathrooms, kitchens and closets; repair or replacement of roofs, floors, ceilings, and stairways; and home modifications for the handicapped.

Any Maryland homeowner, regardless of income, may be eligible for an energy conservation loan. Energy improvements can include: caulking and weather-stripping; insulation; replacement heating systems; furnace efficiency modifications, replacement burners and vent dampers; new solar or energy efficient water heaters; storm and thermal windows and doors; siding; clock thermostats; and solar heating systems.

Through the Energy Bank, a companion CDA loan program, the interest rate on HELP loans for energy improvements only for families with limited incomes can be subsidized. This can reduce the interest rate to as low as zero percent, depending on family income and the type of energy improvements planned.

Loans made through HELP will be insured by the Maryland Housing Fund, DECD's mortgage insurance program.

Homeowners in the Baltimore metropolitan area who are interested in obtaining loans for energy conservation improvements should contact the Baltimore Gas And Electric Company, Energy Services Department at (301) 298-1855. Other lenders offering HELP loans include:

Universal Bank, 7919 George Palmer Highway, Lanham-Seabrook, MD 20706, (301) 773-0600, (Montgomery and Prince George's Counties).

People's Fight Back conference slated for Baltimore

During the weekend of June 8 -9, the National People's Fightback Conference will be held in Baltimore. The two-day meeting will provide an opportunity for all opposed to the Reagan administration's policies to get together, find out what others are doing around the country, and map out plans for building a unified, independent grassroots movement in 1985.

Present at the meeting will be activists and organizers from community organizations, anti-war groups. There will be trade unionists organizers from the women's movement, anti-racist fighters, veterans, seniors and tenant organizers, lesbian and gay rights activists, the disabled and many others. The conference has struck a very responsive chord among students. Organizers from dozens of campuses are planning to come and to utilize the conference to plan a new wave of campus protests in the fall.

Larry Holmes, national coordinator of the All-Peoples Congress, which has initiated the People's Fightback Conference, says "From Maine to California, people are angry. They are angry over the growing U.S. war in Central America, over Washington's support for apartheid in South Africa, the most detestable system in the world. They are angry about high and chronic unemployment, and about racism encouraged by the government. People are angry and they are beginning to move. This new spirit of resistance can be seen in the nationwide movement against apartheid and in the demonstrations on April 20, when 150,000 took to the streets nationally to protest war and unemployment.

"The People's Fightback Conference, which seeks to strategize for welding all the issues and struggles together into a strong, independent mass movement, is the next logical step. And Baltimore, a poor, largely black city which has been especially hard hit by cutbacks and layoffs, and is easily accessible from the great industrial areas of the East, the Midwest and the South as well, is the ideal site for such a conference."

In addition to this conference, the All-Peoples Congress's U.S. Out of Southern Africa Network is calling on Anti-apartheid activists nationwide to hold actions on June 16, the 9th anniversary of the Soweto uprising.

A national grassroots organization, the All-Peoples Congress was founded in a Detroit convention of thousands in 1981 for the purpose of fighting Reaganism. Since then it has held hundreds of meetings, sit-ins, demonstrations and other protests from coast to coast opposing the anti-labor arch—racist, bigoted, anti-poor and pro-war policies emanating from Washington.
