
Now you don't have to pick a number.
Your number's waiting for you.

It's the Quick Three Quick Four Game from the Maryland State Lottery, and it's quicker and easier than ever. Lotto players have always had the ability to let the Lottery's computers pick numbers for them. Now Pick 3 and Pick 4 players can let the Lottery's computers work for them. No more birthdays, anniversaries or license plates to remember. Just remember to bring 50¢ and let the Lottery's computer pick numbers for you. Then remember to watch the drawing at 7:30 pm on WJZ-TV, Channel 13, in Baltimore. And then, when you win, don't forget to cash in your winning ticket at your nearest Lottery Agent. Prizes of $600 or less are paid immediately by all Lottery Agents.

Play today and win tonight with the Maryland State Lottery's Quick Three Quick Four Game.
